
Museum and exhibition design is the main focus of their work. They completed the architecture for the Documenta 11, the Flick Collection in the Hamburger Bahnhof in Berlin as well as the Julia Stoschek Collection in Duesseldorf. The office attaches importance to dealing sensitively with listed buildings (Lauder Business School) often in combination with the reorganisation of contemporary and historic art-collections as done for the Museum Belvedere, Vienna or the Liebieghaus, Frankfurt.

Currently KUEHN MALVEZZI is planning the extension for the Museum Berggruen in Berlin as well as the new-presentation of the collection of the Herzog Anton Ulrich-Museum in Braunschweig, the Kunstsammlung Nordrhein-Westfalen and the Kunstgewerbemuseum Berlin. During the last years numerous buildings for private clients were completed including residential houses, business premises and hotels (Resort Wetzlug, Austria). Next to a number of projects in Europe which presently are in planning stage or under construction KUEHN MALVEZZI successfully have been participating in international competitions.

Winning the special prize, KUEHN MALVEZZI’s competition entry for the Humboldt-Forum in Berlin attracted a lot of attention. Their substantial critical approach to reconstruction shown in this design was also awarded with the German critics’ prize 2009 in the category architecture. Their projects have been shown in international solo and group exhibitions, amongst others in the German Pavilion at the 10th Architecture Biennial in Venice 2006.
